MANAGEMENT RIGHTS:

Section 2.02 The Union understands the Employer is responsible to perform the work required by the owner. The Employer shall, therefore, have no restrictions except those specifically provided for in the collective bargaining agreement, in planning, directing and controlling the operation of all his work, in deciding the number and kind of employees to properly perform the work, in hiring and laying off employees, in transferring employees from job to job within the Local Union's geographical jurisdiction, in determining the need and number as well as the person who will act as Foreman, in requiring all

- C) When an employee is called as a Foreman, he must remain as a Foreman for 500 hours or must receive a reduction in force.

JOURNEYMAN RECALL:

Section 2.05 An Employer is permitted to recall for employment a former Employee no matter where his/her position is on the out-of-work list. All charges of violations of this section shall be considered as a dispute and shall be processed in accordance with the provisions of this agreement for the handling of grievances with the exception that any decision of a local labor-management committee that may be contrary to the intent of the parties to the National Agreement on Employee Portability, upon recommendation of either or both the appropriate IBEW International Vice President or NECA Regional Executive Director, is subject to review, modification, or rescission by the Council on Industrial Relations.

Section 2.07 A journeyman wireman shall be required to make corrections on improper workmanship for which he is responsible on his own time and during regular working hours, unless errors were made by orders of the Employer or the Employer's representative. Employers shall notify the Union of workmen who fail to adjust improper workmanship and the Union assumes responsibility for the enforcement of this provision.

UNION RECOGNITION:

Section 2.08(A) The Employer recognizes the Union as the sole and exclusive representative of all its employees performing work within the jurisdiction of the Union for the purpose of collective bargaining in respect to rates of pay, wages, hours of employment and other conditions of employment.

Section 2.08(B) The Employer understands that the Local Union's jurisdiction – both trade and territorial – is not a subject for negotiations but rather is determined solely within the IBEW by the International President and, therefore, agrees to recognize and be bound by such determinations.

UNION SECURITY:

Section 2.09 All employees covered by this Agreement shall be required to become and remain members of the Union as a condition of employment from and after the eighth day following the date of their employment, or the effective date of this Agreement, whichever is later.

UNION RIGHT TO DISCIPLINE MEMBERS:

Section 2.12 The Union reserves the right to discipline its members for violation of its laws, rules and agreements.

Section 2.13 The representative of the Union shall be allowed access to any shop or job, at any reasonable time, where workmen are employed under the terms of this Agreement to see that the terms of this Agreement are complied with.

Section 2.14(A) This Agreement does not deny the right of the Union or its representatives to render assistance to other labor organizations by removal of its members from jobs when necessary and when the Union or its representatives decides to do so; but no removal shall take place until timely notice is first given to the Employer involved.

Section 2.14(B) When such removal takes place, the Union or its representatives shall direct the workmen on such jobs to carefully put away all tools, materials, equipment or any other property of the Employer in a safe manner. The Union will be financially responsible for any loss to the Employer for neglect in carrying out this provision, but only when a safe place is provided for by the Employer.

ANNULMENT / SUBCONTRACTING:

Section 2.15 The Local Union is a part of the International Brotherhood of Electrical Workers and any violation or annulment by an individual Employer of the approved Agreement of this or any other Local Union of the IBEW, other than violations of Paragraph 2 of this Section, will be sufficient cause for the cancellation of his Agreement by the Local Union after a finding has been made by the International President of the Union that such a violation or annulment has occurred.

The subletting, assigning or transfer by an individual Employer of any work in connection with electrical work to any person, firm or corporation not recognizing the IBEW or one of its Local Unions as the collective bargaining representative of his employees on any electrical work in the jurisdiction of this or any other Local Union to be performed at the site of the construction, alteration, painting or repair of a building, structure or other work, will be deemed a material breach of this Agreement.

Section 4.02 The Union shall be the sole and exclusive source of referral of applicants for employment.

Section 4.03 The Employer shall have the right to reject any applicant for employment.

Section 4.04 The Union shall select and refer applicants for employment without discrimination against such applicants by reason of membership or non-membership in the Union and such selection and referral shall not be affected in any way by rules, regulations, bylaws, constitutional provisions or any other aspect or obligation of Union membership policies or requirements. All such selection and referral shall be in accord with the following procedure.

Section 4.05 The Union shall maintain a register of applicants for employment established on the basis of the Groups listed below. Each applicant for employment shall be registered in the highest priority Group for which he qualifies.

GROUP I All applicants for employment who have four or more years' experience in the trade, are residents of the geographical area constituting the normal construction labor market, have passed a Journeyman Wireman's examination given by a duly constituted Inside Construction Local Union of the I.B.E.W. or have been certified as a Journeyman Wireman by any Inside Joint Apprenticeship and Training Committee, and, who have been employed in the trade for a period of at least one year in the last four years in the geographical area covered by the collective bargaining agreement.

Group I status shall be limited to one Local Union at one time. An applicant who qualifies for Group I in a local union shall be so registered electronically and remain on Group I in that local union unless and until the applicant designates another local union as his or her Group I local union. If an applicant qualifies for Group I status in a local union other than his or her home local union and designates that local as his or her Group I local union, the business manager of the new Group I status local union shall by electronic means notify the business manager of the applicant's former Group I status local union.

GROUP II All applicants for employment who have four or more years' experience in the trade and who have passed a Journeyman Wireman's examination given by a duly constituted Inside Construction Local Union of the I.B.E.W. or have been certified as a Journeyman Wireman by any Inside Joint Apprenticeship and Training Committee.

GROUP III All applicants for employment who have two or more years' experience in the trade, are residents of the geographical area constituting the normal construction labor market, and who have been employed for at least six months in the last three years in the geographical area covered by the collective bargaining agreement.

GROUP IV All applicants for employment who have worked at the trade for more than one year.

Section 4.06 If the registration list is exhausted and the Local Union is unable to refer applicants for employment to the Employer within 48 hours from the time of receiving the Employer's request, Saturdays, Sundays and holidays excepted, the Employer shall be free to secure applicants without using the Referral Procedure but such applicants, if hired, shall have the status of "temporary employees".

Section 4.07 The Employer shall notify the Business Manager promptly of the names and Social Security numbers of such "temporary employees" and shall replace such "temporary employees" as soon as registered applicants for employment are available under the Referral Procedure.

Section 4.08 "Normal construction labor market" is defined to mean the following geographical area plus the commuting distance adjacent thereto which includes the area from which the normal labor supply is secured:

All of Coshocton, Guernsey, Licking, Muskingum and Perry Counties of Ohio. Jackson, Clay, Morgan, Miller, Milford, Hilliar, Butler, Harrison, Pleasant and College Townships in Knox County, Ohio. Auburn, York, Jefferson, Clay, Rush, Oxford, Washington, Salem, Perry, and Bucks Township in Tuscarawas County, Ohio.

The above geographical area is agreed upon by the parties to include the area defined by the Secretary of Labor to be the appropriate prevailing wage area under the Davis-Bacon Act to which the Agreement applies.

Section 4.09 "Resident" means a person who has maintained his permanent home in the above defined geographical area for a period of not less than one year or who, having had a permanent home in this area, has temporarily left with the intention of returning to this area as his permanent home.

Section 4.10 An “Examination” shall include experience rating tests if such examination shall have been given prior to the date of this procedure, but from and after the date of this procedure, shall include only written and/or practical examinations given by a duly constituted Inside Construction Local Union of the I.B.E.W. Reasonable intervals of time for examinations are specified as ninety (90) days. An applicant shall be eligible for examination if he has four years’ experience in the trade.

Section 4.11 The Union shall maintain an “Out of Work List” which shall list the applicants within each Group in chronological order of the dates they register their availability for employment.

RE-REGISTRATION:

Section 4.12 An applicant who has registered on the “Out of Work List” must renew his application every 30 days or his name will be removed from the List.

Section 4.13 An applicant who is hired and who receives, through no fault of his own, work of forty hours or less shall, upon re-registration, be restored to his appropriate place within his Group.

Section 4.14(A) Employers shall advise the Business Manager of the Local Union of the number of applicants needed. The Business Manager shall refer applicants to the Employer by first referring applicants in Group I in the order of their place on the “Out of Work List” and then referring applicants in the same manner successively from the “Out of Work List” in Group II, then Group III, and then Group IV. Any applicant who is rejected by the Employer shall be returned to his appropriate place within his Group and shall be referred to other employment in accordance with the position of his Group and his place within his Group.

REPEATED DISCHARGE:

Section 4.14(B) An applicant who is discharged for cause two times within a 12-month period shall be referred to the neutral member of the Appeals Committee for a determination as to the applicant’s continued eligibility for referral. The neutral member of the Appeals Committee shall, within three business days, review the qualifications of the applicant and the reasons for the discharges. The neutral member of the Appeals Committee may, in his or her sole discretion: (1) require the applicant to obtain further training from the JATC before again being eligible for referral; (2) disqualify the applicant for referral for a period of four weeks, or longer, depending on the seriousness of the conduct and/or repetitive nature of the conduct; (3) refer the applicant to an employee assistance program, if available, for evaluation and recommended action; or (4) restore the applicant to his/her appropriate place on the referral list.

Section 4.15 The only exceptions which shall be allowed in this order of referral are as follows:

- (a). When the Employer states bona fide requirements for special skills and abilities in his request for applicants, the Business Manager shall refer the first applicant on the register possessing such skills and abilities.
- (b). The age ratio clause in the Agreement calls for the employment of an additional employee or employees on the basis of age. Therefore, the Business Manager shall refer the first applicant on the register satisfying the applicable age requirements provided, however, that all names in higher priority Groups, if any, shall first be exhausted before such overage reference can be made.

Section 4.16 An Appeals Committee is hereby established composed of one member appointed by the Union, one member appointed by the Employer or the Association, as the case may be, and a Public Member appointed by both these members.

Section 4.17 It shall be the function of the Appeals Committee to consider any complaint of any employee or applicant for employment arising out of the administration by the Local Union of Section 4.04 through 4.15 of the Agreement. The Appeals Committee shall have the power to make a final and binding decision on any such complaint which shall be complied with by the Local Union. The Appeals Committee is authorized to issue procedural rules for the conduct of its business but it is not authorized to add to, subtract from, or modify any of the provisions of this Agreement and its decisions shall be in accord with this Agreement.

Section 4.18 A representative of the Employer or of the Association, as the case may be, designated to the Union in writing, shall be permitted to inspect the Referral Procedure records at any time during normal business hours.

Section 4.19 A copy of the Referral Procedure set forth in this Agreement shall be posted on the Bulletin Board in the offices of the Local Union and in the offices of the Employers who are parties to this Agreement.

Section 4.20 Apprentices shall be hired and transferred in accordance with the Apprenticeship provisions of the Agreement between the parties.

REVERSE LAYOFF:

Section 4.21 When making reductions in the number of employees due to lack of work, Employers shall use the following procedure:

- (a). Temporary employees, if any are employed, shall be laid off first. Then employees in Group IV shall be laid off next, if any are employed in this Group. Next to be laid off are employees in Group III, if any are employed in this Group, then those in Group II, and then those in Group I.
- (b). Paragraph (a) will not apply as long as the special skills requirement as provided for in Section 4.15(a) is required.
- (c). Supervisory employees covered by the terms of this Agreement will be excluded from layoff as long as they remain in a supervisory capacity. When they are reduced to the status of Journeyman, they will be slotted in the appropriate group in paragraph (a) above.

ARTICLE V

Standard Inside Apprenticeship and Training Language

Section 5.01 There shall be a local Joint Apprenticeship and Training Committee (JATC) consisting of a total of either 6 or 8 members who shall also serve as Trustees to the local apprenticeship and training

trust. An equal number of members (either 3 or 4) shall be appointed, in writing, by the local chapter of the National Electrical Contractors Association (NECA) and the local union of the International Brotherhood of Electrical Workers (IBEW).

The local apprenticeship standards shall be in conformance with national guideline standards and industry policies to ensure that each apprentice has satisfactorily completed the NJATC required hours and course of study. All apprenticeship standards shall be registered with the NJATC before being submitted to the appropriate registration agency.

The JATC shall be responsible for the training of apprentices, journeymen, installers, technicians, and all others (unindentured, intermediate journeymen, etc.).

Section 5.02 All JATC member appointments, re-appointments and acceptance of appointments shall be in writing. Each member shall be appointed for a 3 year term, unless being appointed for a lesser period of time to complete an unexpired term. The terms shall be staggered, with one (1) term from each side expiring each year. JATC members shall complete their appointed term unless removed for cause by the party they represent or they voluntarily resign. All vacancies shall be filled immediately.

The JATC shall select from its membership, but not both from the same party, a Chairman and a Secretary who shall retain voting privileges. The JATC will maintain one (1) set of minutes for JATC committee meetings and a separate set of minutes for Trust meetings.

The JATC should meet on a monthly basis, and also upon the call of the Chairman.

Section 5.03 Any issue concerning an apprentice or an apprenticeship matter shall be referred to the JATC for its review, evaluation and resolve; as per standards and policies. If the JATC deadlocks on any issue, the matter shall be referred to the Labor-Management Committee for resolution as outlined in Article I of this agreement; except for trust fund matters, which shall be resolved as stipulated in the local trust instrument.

Section 5.04 There shall be only one (1) JATC and one (1) local apprenticeship and training trust. The JATC may, however, establish joint subcommittees to meet specific needs, such as residential or telecommunication apprenticeship. The JATC may also establish a subcommittee to oversee an apprenticeship program within a specified area of the jurisdiction covered by this agreement.

All subcommittee members shall be appointed, in writing, by the party they represent. A subcommittee member may or may not be a member of the JATC.

Section 5.05 The JATC may select and employ a part-time or a full-time Training Director and other support staff, as it deems necessary. In considering the qualifications, duties, and responsibilities of the Training Director, the JATC should review the Training Director's Job Description provided by the NJATC. All employees of the JATC shall serve at the pleasure and discretion of the JATC.

Section 5.06 To help ensure diversity of training, provide reasonable continuous employment opportunities, and comply with apprenticeship rules and regulations, the JATC, as the program sponsor, shall have full authority for issuing all job training assignments and for transferring apprentices from one employer to another. The employer shall cooperate in providing apprentices with needed work experiences. The local union referral office shall be notified, in writing, of all job training assignments. If

the employer is unable to provide reasonable continuous employment for apprentices, the JATC is to be so notified.

Section 5.07 All apprentices shall enter the program through the JATC as provided for in the registered apprenticeship standards and selection procedures.

An apprentice may have their indenture canceled by the JATC at any time prior to completion as stipulated in the registered standards. Time worked and accumulated in apprenticeship shall not be considered for local union referral purposes until the apprentice has satisfied all conditions of apprenticeship. Individuals terminated from apprenticeship shall not be assigned to any job in any classification, or participate in any related training, unless they are reinstated in apprenticeship as per the standards, or they qualify through means other than apprenticeship, at some time in the future, but no sooner than two years after their class has completed apprenticeship, and they have gained related knowledge and job skills to warrant such classification.

Section 5.08 The JATC shall select and indenture a sufficient number of apprentices to meet local manpower needs. The JATC is authorized to indenture the number of apprentices necessary to meet the job site ratio as per Section 5.12.

Section 5.09 Though the JATC cannot guarantee any number of apprentices; if a qualified employer requests an apprentice, the JATC shall make every effort to honor the request. If unable to fill the request within ten (10) working days, the JATC shall select and indenture the next available person from the active list of qualified applicants. An active list of qualified applicants shall be maintained by the JATC as per the selection procedures.

Section 5.10 To accommodate short-term needs when apprentices are unavailable, the JATC shall assign unindentured workers who meet the basic qualifications for apprenticeship. Unindentured workers shall not remain employed if apprentices become available for OJT assignment. Unindentured workers shall be used to meet job site ratios except on wage and hour (prevailing wage) job sites.

Before being employed, the unindentured person must sign a letter of understanding with the JATC and the employer—agreeing that they are not to accumulate more than two thousand (2,000) hours as an unindentured, that they are subject to replacement by indentured apprentices and that they are not to work on wage and hour (prevailing wage) job sites.

Should an unindentured worker be selected for apprenticeship, the JATC will determine, as provided for in the apprenticeship standards, if some credit for hours worked as an unindentured will be applied toward the minimum OJT hours of apprenticeship.

The JATC may elect to offer voluntary related training to unindentured; such as Math Review, English, Safety, Orientation/Awareness, Introduction to OSHA, First-Aid and CPR. Participation shall be voluntary.

Section 5.11 The employer shall contribute to the local health and welfare plans and to the National Electrical Benefit Fund (NEBF) on behalf of all apprentices and unindentured. Contributions to other benefit plans may be addressed in other sections of this agreement.

Section 5.12 Each job site shall be allowed a ratio of two (2) apprentices for every three (3) Journeyman Wiremen(man) or fraction thereof as illustrated below.

Number of Journeymen	Maximum Number of Apprentices/Unindentured
1 to 3	2
4 to 6	4
etc.	etc.

The first person assigned to any job site shall be a Journeyman Wireman.

A job site is considered to be the physical location where employees report for their work assignments. The employer's shop (service center) is considered to be a separate, single job site.

All other physical locations where workers report for work are each considered to be a single, separate job site.

Section 5.13 An apprentice is to be under the supervision of a Journeyman Wireman at all times. This does not imply that the apprentice must always be in sight of a Journeyman Wireman. Journeymen are not required to constantly watch the apprentice. Supervision will not be of a nature that prevents the development of responsibility and initiative. Work may be laid out by the employer's designated supervisor or journeyman based on their evaluation of the apprentice's skills and ability to perform the job tasks. Apprentices shall be permitted to perform job tasks in order to develop job skills and trade competencies. Journeymen are permitted to leave the immediate work area without being accompanied by the apprentice.

Apprentices who have satisfactorily completed the first four years of related classroom training using the NJATC curriculum and accumulated a minimum of 6,500 hours of OJT with satisfactory performance, shall be permitted to work alone on any job site and receive work assignments in the same manner as a Journeyman Wireman.

An apprentice shall not be the first person assigned to a job site and apprentices shall not supervise the work of others.

Section 5.14 Upon satisfactory completion of apprenticeship, the JATC shall issue all graduating apprentices an appropriate diploma from the NJATC. The JATC shall encourage each graduating apprentice to apply for college credit through the NJATC. The JATC may also require each apprentice to acquire any electrical license required for journeymen to work in the jurisdiction covered by this Agreement.

Section 5.15 The parties to this Agreement shall be bound by the Local Joint Apprenticeship and Training Trust Fund Agreement which shall conform to Section 302 of the Labor-Management Relations Act of 1947 as amended, ERISA, and other applicable regulations.

The Trustees authorized under this Trust Agreement are hereby empowered to determine the reasonable value of any facilities, materials or services furnished by either party. All funds shall be handled and disbursed in accordance with the Trust Agreement.

Section 5.16 All Employers subject to the terms of this Agreement shall contribute the amount of funds specified by the parties signatory to the local apprenticeship and training trust agreement. The current rate of contribution is sixty-five cents (\$1.15) per hour for each hour worked. This sum shall be due the Trust Fund by the same date as is their payment to the NEBF under the terms of the Restated Employees Benefit Agreement and Trust.

The parties to this Agreement resolve to combat chemical abuse in any form and agree that, to be effective, programs to eliminate substance abuse and impairment should contain a strong rehabilitation component. The local parties recognize that the implementation of a drug and alcohol policy and program must be subject to all applicable federal, state, and local laws and regulations. CONSTRUCTION WIREMAN/CONSTRUCTION ELECTRICIAN ADDENDUM

to the Inside Construction Agreement between

Local Union No. 1105, IBEW

and

Newark Division of the Central Ohio Chapter, NECA, Inc.

Effective May 27, 2013

1. The Construction Wireman/Construction Electrician classification shall consist of a minimum of 6 levels (pay levels). Construction Wiremen shall accumulate or document up to 8,000 hours of work experience. Those with over 8,000 hours of documented work experience or upon accumulating 8,000 hours of documented work experiences shall be classified as Construction Electricians. Standard and fixed means for selection, evaluation and placement for entry level based on previous experience and training, shall be determined and established by the local JATC. However, evaluation and placement of any individual with 8,000 hours of work experience, having completed their probationary period and desiring to obtain Journeyman Inside Wireman status, shall be done according to NJATC guidelines. Conditions and prerequisites for advancement from one level to the next shall be determined and fixed by the local JATC. Advancement in pay levels for Construction Wiremen and Construction Electricians may be based on work experience alone or a combination of work experience and/or minimum classroom training and/or testing as determined by the local parties through the local JATC.
2. A Construction Electrician who desires to advance to the classification of Journeyman Inside Wireman may request to take the written and practical examinations of each of the levels of the NJATC Craft Certification Program. All requests to take level exams shall be contingent upon the individual's satisfactory work history. To help prepare the individual to take the Craft Certification Examinations, the local JATC will determine minimum training needed taking into consideration the input and recommendations of the NJATC. The satisfactory completion of the examinations of one level will result in the Construction Electrician automatically qualifying to take the written and practical examination of the next level. This procedure will continue until each level of examinations has been satisfactorily completed. Any Construction Electrician failing to achieve a passing score on either the written or practical examination at each level will be offered an opportunity to enroll in and must successfully complete the required course work developed by the NJATC for that level. The Construction Electrician can then re-take the same examination(s) but will only be examined in the areas that he/she failed to pass on the first attempt provided that such re-examination occurs within a 1-year period. Upon successfully passing the examinations of one level, the individual is eligible to take the next level examinations. No Construction Electrician will be eligible for reclassification to Journeyman Inside Wireman until he/she has passed all level exams, has passed the final NJATC written and practical (hands-on) Craft Certification Examinations and has accumulated at least 14,000 hours of documented work experience. Acceptance of applications from Construction Electricians to take the Craft Certification Exams required to become a Journeyman Inside Wireman shall not be automatic.
3. All courses, testing and evaluation tools for placement of Construction Wiremen shall be performed by the JATC; however, evaluation and placement of any individual classified above the level of 8,000 hours of work experience and

desiring to attain Journeyman Inside Wireman status must be done according to NJATC guidelines. Only the NJATC written and hands-on (practical) Craft Certification Exams shall be used for determining Inside Journeyman Wireman status.

4. Entrance requirements, means for advancement, and limitations pertaining to the Construction Wireman/Construction Electrician classifications are addressed in the Construction Wireman/Construction Electrician Memorandum.
5. For those entering either classification as a result of an organizing effort, the initial entry evaluation and placement as a Construction Wireman/Construction Electrician will be based on the applicant's experience, recruiting contractor's request and/or local union organizer's recommendations. The JATC will determine the level of entry for such individuals, but will cooperate with the organizing effort of the local union and manpower requests from the contractors.
6. Respecting job site ratios determined by the local parties, Construction Wiremen shall be assigned to employers by the JATC. Construction Electricians shall be referred by the local union to the employer in accordance with the procedures in the master agreement.
7. Any employer signatory to the master agreement between the local parties who is ready and willing and/or regularly employs and trains apprentices (when available) is eligible for the assignment of Construction Wiremen or the referral of Construction Electricians based on the allowable ratio in the applicable agreement. A job site is considered to be the physical location where employees report for their work assignments. The employer's shop (service center) is considered to be a separate, single job site. All other physical locations where workers report for work are each considered to be a single, separate job site.
8. Where there are indentured apprentices available for work, an employer may not add additional Construction Wiremen or Construction Electricians to a job site unless the employer is already employing the full complement of apprentices allowed under the locally adopted apprentice-to-journeyman ratio on that job site. (An employer may be allowed to add Construction Wiremen/Construction Electricians under this section if the local JATC has determined that the employer has and is cooperating in the employment and training of apprentices or the Construction Wiremen/Construction Electricians requested are covered by a Small Works or Market Recovery Agreement other than the Inside Agreement.) Construction Wiremen/Construction Electricians already employed by the employer need not be laid off or replaced when indentured apprentices become available for employment.
9. Construction Wiremen/Construction Electricians may be transferred from job to job for the same employer as long as the appropriate ratios are maintained. The local parties shall determine the ratio of Construction Wiremen/Construction Electricians to Journeymen Wiremen.
10. New Construction Wiremen/Construction Electricians will not be added to the program when Construction Wiremen/Construction Electricians are continually unemployed and available for referral. *NOTE: The term "continually unemployed," as used in this section, is intended to mean when the individuals are willing and available for referral or assignment over an extended period of time, which shall be agreed to by the local parties. Brief periods of unemployment of one or more Construction Wiremen/Construction Electricians over the normal course of business such as the regular or seasonal building up and reduction of manpower on jobs within the jurisdiction will not prevent the addition of new Construction Wiremen/Construction Electricians.
11. Work performed by Construction Wiremen/Construction Electricians will be limited only by what the employer or the employer's field representative deems as appropriate and within the individual's qualifications to properly perform safely and in a workmanlike manner. In this regard, Construction Wiremen/Construction Electricians may work alone if deemed qualified by the employer and permitted by local statute.

12. Construction Wiremen/Construction Electricians will not figure into the allowable job site ratio of apprentices to journeymen as provided in the inside collective bargaining agreement.
13. Contributions shall be made on behalf of Construction Wiremen/Construction Electricians to the NEBF, NLMCC, LLMCC (if applicable), and NECA service charges/NEIF (where applicable). JATC contributions will be paid on all levels of Construction Wiremen/Construction Electricians. (The local parties shall determine the participation of Construction Wiremen/Construction Electricians in Health, Local Pension, Vacation, Annuity, and other benefit plans in the master agreement.)
